

Try out this new Gate Sentry feature for your guests!

Introducing **SentryPass**

We are pleased to announce that your community will soon be implementing *SentryPass* to enhance guest access.

SentryPass: A mobile access pass for your guests

How it Works:

When adding guests, include their cell number to send them a VIP *SentryPass* via text from Gate Sentry. Each pass features a quick access QR code and is valid for the visitor duration you choose.

Entry Process

When your guest arrives, security will scan their *SentryPass*. The guest's information will appear and the guard will verify the guest before granting access and you will still receive a visitor arrival notification via phone or email.

Haven't created a Gate Sentry account yet?

If you haven't set up a Gate Sentry account, please email your community name and address to support@gatesentry.com.
